

Date 03/10/2022

Dear All

Please find:

1. A monthly email from Dariusz Jablonski (short bio can be found the website <https://www.djgeoscience.com/>)
2. You are invited to view my website <https://www.djgeoscience.com/>
3. The aim is to:
 - **Provide access to high end data (wells, 3D merge, including inversion) anywhere in the world**
 - **Provide access to high end interpretational products (post-wells & prospectivity reports) anywhere in the world**
 - **Ability to QC and organise DBs of private and government organisations**
 - **Provide advice to governments on acreage release**
 - **Yearly subscription option is available**
4. The current Oct 2022 products on offer are:
 - a) Well top definitions (free excel)
 - b) Well tops in the Carnarvon Basin (1700 out of 2200 wells) that includes all open exploration wells (free listing in excel)
 - c) Two sets of combined 3Ds in the Northern Carnarvon Basin (pdf of what is available)
 - d) Complimentary material that includes my plate tectonics, stratigraphic tables & selected publications (free pdfs)
5. November 2022 products are likely to include: missing well top updates; play maps and post-well analysis free software (all subject to my work load) with a free example of a post-well.
6. This is a long term project and a number of other products are being prepared as indicated on the website
7. If you wish about high grading some of the products pls contact me
8. I hope you find this of interest, if not now, then sometime in the future.
9. Please feel free to pass this email to perhaps other interested parties
10. I will also publish some predictions for future exploration wells being planned to be drilled on the GNWS
11. GNWS is just the beginning and I am more than happy to work on data anywhere in the world

You can contact me via this email

Kind regards

Dariusz Jablonski
